# Sustainably Speaking: A Note from the IEEE HAC Chair

## *Celebrating IEEE HAC Accomplishments from April – June 2022*

Dear IEEE Colleagues,

It's my pleasure to share the latest version of the IEEE HAC quarterly report with you. HAC has dedicated a lot of time over the past months to the collection and evaluation of project proposals for various calls for proposals (CfPs), including the first [HAC/SIGHT Projects CFP](#) of the year, and three collaborative CfPs with the [IEEE Antennas & Propagation Society \(AP-S\)](#), the [IEEE Signal Processing Society \(SPS\)](#), and [IEEE Region 8](#). These CfPs demonstrate that HAC offers solutions to support organizational vitality and member engagement for its partners. We continually strive to engage IEEE entities to create opportunities for members to leverage their skills by conducting humanitarian technology projects that will address local sustainable development challenges.

HAC/SIGHT celebrated the third annual SIGHT Day on April 28. I'm thankful to the organizers, volunteers, speakers, and participants who took part in the celebration, and especially IEEE President Ray Liu, who joined the [opening session](#). As the founding chair of SIGHT Day, it is rewarding to see how it has grown. I encourage you to visit the [SIGHT website](#) to access recordings of the sessions.

Earlier this year, the IEEE Foundation Board approved HAC to receive US\$175K from a bequest from the Estate of Jon C. Taenzer to the IEEE Foundation. HAC is using this to establish a small grants program over the next three years focused on breakthroughs in aids for persons with disabilities or supporting engineers in under-developed countries. As part of the initial discovery work for the program, I attended [the United Nations Conference of States Parties to the Convention on the Rights of Persons with Disabilities](#) (COSP15) and hosted a [side event](#) to the conference. There I met representatives from all over the world and shared possibilities of scaling their existing programs, piloting activities, and developing new approaches through collaboration with IEEE.

After a long time of virtual meetings, HAC had an in-person meeting in June to identify actionable plans to deliver enriching experiences for IEEE members contributing to humanitarian technology activities at a grassroots level. Another highlight from June was attending the IEEE Meeting Series, where I enjoyed conversations with senior IEEE leaders. I shared details on HAC's global strategy, its recent record-breaking growth, and the process improvements to maximize HAC/SIGHT project impact. I was encouraged by their support for humanitarian technology activities at IEEE and motivated to continue our important work together.

Stay safe and healthy,  
Sampathkumar Veeraraghavan, 2021 - 2022 HAC Chair

# *IEEE HAC Mission, Strategic Areas of Focus, & Unique Value*

# What is IEEE HAC?

The IEEE Humanitarian Activities Committee (HAC) provides leadership as well as a suite of resources that inspire and enable IEEE volunteers around the world to carry out and support impactful humanitarian technology and sustainable development activities at the local level.

# IEEE HAC Strategic Areas of Focus

## Raising Awareness

HAC increases understanding of the role of engineering and technology in sustainable development.

## Providing Training

HAC provides educational resources and opportunities so that humanitarian technology participants can have a greater positive impact.

## Supporting Humanitarian Technology and Sustainable Development Activities

HAC awards funding for grassroots IEEE member projects that utilize technology to address local challenges.

## Building a Sustainable Development Community

HAC collaborates across and beyond IEEE to foster opportunities in sustainable development.

# Unique Value Proposition of HAC Provides Solutions to Challenges

What does IEEE HAC offer IEEE members and organizational units (OUs)?

- 1. Organizational Vitality:** HAC offerings can help engage existing and potential members, including the aspect of succession planning for IEEE OUs by nurturing the IEEE leaders of the future.
- 2. Learning Opportunities:** HAC/SIGHT training and educational content enrich the member experience by providing life-long learning opportunities for academic and professional development.
- 3. Community:** HAC/SIGHT can facilitate connection with like-minded IEEE members around the world; a global, grassroots network of technologists contributing to sustainable development.
- 4. Access to Ecosystem:** HAC plays a role in inspiring members to continue in the larger IEEE ecosystem. As IEEE is a large, multifaceted organization, there are many opportunities to create relationships and bi-directional pipelines between programs, funding opportunities, projects, and more. HAC/SIGHT activities, especially projects, can serve as a next step, entry point, or steppingstone to other opportunities within IEEE.
- 5. Increased Impact:** HAC's experience and expertise in managing grassroots member projects, collecting impact data, and innovating program development can aid IEEE members and OUs increase the impact of their humanitarian technology activities, effectively contributing to the overall IEEE mission.

# ***IEEE HAC Second Quarter 2022 Highlights***

## HAC collaborates across and beyond IEEE to increase sustainable development innovation

# Collaboration

# IEEE HAC Collaboration Efforts 2022 YTD

IEEE Antennas and  
Propagation Society

# IEEE HAC & IEEE MGA Entity Collaborations

HAC engages with IEEE Regions and other Member & Geographic Activities (MGA) entities to strategically nurture grassroots humanitarian technology and sustainable development volunteer efforts in their respective areas.

- IEEE Region 8 (R8) and IEEE HAC hosted a [collaborative call for proposals](#) to support SIGHT Groups in R8 that will implement community intervention projects to address local community challenges. With this call, R8 and HAC aim to support great initiatives and creative ideas on how to address challenges using technology in the local, underserved communities of R8 SIGHT Groups. Proposed projects have a sustainability plan, demonstrate community buy-in, and be cost-effective, environmentally sustainable, trust-enhancing, relevant to users and the community, and accessible.

The graphic is a promotional poster for a call for proposals. It features a dark blue header with the text 'Call for Proposals for Community Intervention Projects'. Below the header, it says 'IEEE Region 8 and IEEE HAC'. In the center, there is a light blue icon of a document with a pencil. To the right of the icon, it says 'Submission Deadline 30 June 2022'. At the bottom left, there is the IEEE Region 8 logo, which includes a map of the region. At the bottom right, there is the IEEE Humanitarian Activities Committee logo. A dark blue button with the text 'Learn More' is located at the bottom center.

# IEEE HAC & IEEE Society Collaborations

HAC fosters stronger collaboration with IEEE Societies to build complementary avenues to engage with Society members and utilize best-in-class technology to address sustainable development challenges.

- The [IEEE Signal Processing Society \(SPS\)](#) and IEEE HAC are holding a collaborative call for proposals to support SPS Chapter projects that utilize signal processing technologies to address local community challenges. Awards of US\$1,000 to US\$2,000 will be made to selected projects that present a convincing plan to a) understand the real needs of a local community or local stakeholder organization and b) complete in no more than six months' time a project utilizing signal processing technologies to address those local community challenges. The submission deadline was 14 July; more details can be found on the [HAC website](#).
- The [IEEE Antennas and Propagation Society \(AP-S\)](#) contributed **US\$25,000** to the IEEE SIGHT Fund of the Foundation in 2021 and another **US\$25,000** in May to collaborate with HAC by conducting a [special Call for Proposals](#). The call solicited proposals from AP-S Chapters that utilize AP-S-relevant technology to address local community challenges.
  - Fourteen proposals were received from applicants in five different countries.
  - Ten projects were selected to receive funding (nearly US\$37,000 awarded in total) and are now underway.

# IEEE HAC & IEEE Entity Collaborations

- This year's IEEE SIGHT Day celebration included three sessions held in collaboration with other IEEE Programs – IEEE Women in Engineering (also as part of their 25th anniversary program), IEEE Young Professionals, and the IEEE STEM Portal (TryEngineering). If you couldn't attend the events, you can find the recordings on the [HAC/SIGHT youtube channel](#).
- The IEEE Standards Association (SA) launched a new season of the “Re-Think Health” podcast titled "[AI for Good Medicine](#)," and the HAC Chair Sampathkumar Veeraraghavan was the first guest speaker of the season. The episode, "[The Balance: AI's Healthcare Goodness for Marginalized Patients](#)" focused on the idea of whether artificial intelligence (AI) and machine learning (ML) support fairness, personalization, and inclusiveness to chip away at healthcare inequity, or if they will further inequity in the healthcare system.
- HAC continues to develop the new HAC Taenzer program thanks to the US\$175K from a bequest from the Estate of Jon C. Taenzer to the IEEE Foundation.

# Collaboration Highlights in Pictures

*2022 SIGHT Day Opening Session with 2022 IEEE President Dr. K J Ray Liu, HAC Chair, SIGHT Chair, and HAC/SIGHT staff support*

*The HAC Chair attends the United Nations Conference of States Parties to the Convention on the Rights of Persons with Disabilities (COSP15)*

*HAC members gather for the in-person meeting in June*

# Collaboration Highlights in Pictures

*IEEE Board of Directors June Meeting Series: HAC Chair with IEEE President Dr. K J Ray Liu*

*IEEE Board of Directors June Meeting Series: HAC Chair with IEEE president-elect Dr. Saifur Rahman*

*IEEE Board of Directors June Meeting Series: HAC Chair with Region 8 and IEEE TAB Leadership team*

# Collaboration Highlights in Pictures

*IEEE Board of Directors June Meeting Series: : HAC Chair and Marc Beebe, staff lead with Dr. Robin Podmore, IEEE Smart Village*

*IEEE Board of Directors June Meeting Series: : HAC team with IEEE MGA SAC and YP chair*

*IEEE Board of Directors June Meeting Series: : HAC Chair with IEEE Executive Director and COO, Steve Welby*

## Achieving Shared Goals Through Collaboration

Working groups with representatives from IEEE HAC and IEEE Societies, Regions, IEEE programs and organizational units (OUs), and external organizations continue to define plans for collaborative engagement. These collaboration efforts will be coming to fruition in the coming months, and news of further developments will be shared in the next quarterly report.

If you have an idea for how your Region, Society, or other IEEE OU can partner with IEEE HAC, write to [hac-office@ieee.org](mailto:hac-office@ieee.org).

communities around the world

## IEEE SIGHT – A Look Back at SIGHT Day 2022

**IEEE SIGHT**  
IEEE SIGHT Day 2022 Session:  
Humanitarian Technology at IEEE,  
Your Professional Home  
**DATE:** 25 April 2022 **TIME:** 10:00am-11:00am EDT (UTC-4:00)

**Speakers:** Dr. Ray Liu  
2022 IEEE President & CEO

**Speakers:** Mr. Lwanga Herbert  
2021 – 2022 IEEE SIGHT  
Steering Committee Chair

**Host:** Mr. Sengul Kumar Venkateshwaran  
2017 – 2022 IEEE Humanitarian Activities  
Committee (HAC) Chair

**IEEE**  
Advancing Technology  
for Humanity

**IEEE SIGHT**  
SIGHT Day 2022  
**SIGHT Awards  
Ceremony**

**Host:** Mr. Lwanga Herbert  
2021 – 2022 IEEE SIGHT Steering  
Committee Chair

**TIME:**  
29 April  
2022

**TIME:**  
9:00am-9:45am  
EDT (UTC-4:00)

**IEEE**

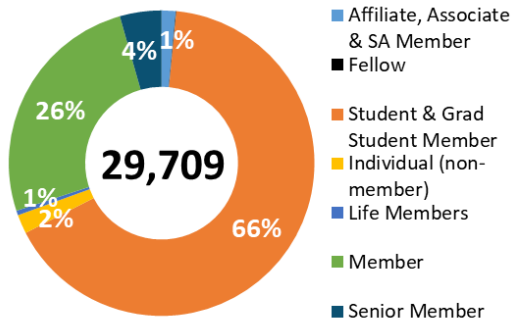

- IEEE SIGHT Mission – A global network of IEEE volunteers partnering with underserved communities & local organizations to leverage technology for sustainable development
- IEEE SIGHT continues to set new records for the program with over **29,700 individual members** in 129 countries and all 10 IEEE Regions as of 30 June 2022.
- SIGHT currently has 209 SIGHT Groups that have been established in 54 countries. IEEE Sections and Student Branches that are interested in forming SIGHT Groups are encouraged to [submit a petition](#) to the IEEE SIGHT Operations Subcommittee.
- IEEE SIGHT celebrated SIGHT Day on 28 April as an intentional time to foster a spirit of community for the global SIGHT network, increase awareness of IEEE SIGHT within IEEE, promote the opportunity to support SIGHT financially, and celebrate the impact SIGHT volunteers and Groups are making. SIGHT organized a number of [virtual events](#), some in collaboration with other IEEE programs, including the first-ever SIGHT Awards Ceremony to recognize the 2021 SIGHT Volunteer and Group of the Year. SIGHT Groups around the world also held activities to celebrate. There were participants in all ten IEEE Regions.

# SIGHT Membership – Indicators of Engagement and Growth

**New SIGHT Members by Year**

**SIGHT Members by IEEE Grade**

**SIGHT Membership Growth Year over Year (2021-2022)**

# *Public Visibility, Upcoming Events, & Opportunities*

## HAC/SIGHT Public Visibility

- In June, IEEE HAC hosted its first-ever side event to the [United Nations Conference of States Parties to the Convention on the Rights of Persons with Disabilities \(COSP15\)](#). This is a major milestone in our continued external collaboration efforts. The session, “Leveraging a Global Network of Technologists to Advance Assistive Technologies/Innovations in Serving Local Communities,” included learnings and best practices on how to engage technologists in developing assistive technologies that are relevant in addressing the challenges faced by local communities of persons with disabilities.

# Upcoming HAC/SIGHT Events

---

- 29 July – HAC keynote session at the [IEEE Women in Engineering International Leadership Summit 2022 \(Kerala Section\)](#)
- 1 – 2 August – HAC presentation at the Region 8 Humanitarian Activities Committee Congress
- 2 – 8 August – HAC capacity-building workshop at the Region 8 Students and Young Professional Congress (SYP 2022)
- 12 August – HAC capacity-building workshop at the Region 10 Student | Young Professional | Women in Engineering | Life Member (SYWL) Congress 2022
- 22 – 26 August – HAC presentation at the [IEEE PES/IAS PowerAfrica Conference](#)
- 27 August – HAC keynote session at the [2022 IEEE Women in Engineering International Leadership Summit \(Hyderabad Section\)](#)
- 8 – 11 September – HAC keynote and panel session at the [2022 Global Humanitarian Technology Conference](#)
- 1 – 30 September – [SIGHT Awards](#) nomination period
- 4 October – [IEEE Day](#)
- November – second IEEE HAC Global Summit

# Opportunities with HAC/SIGHT

## MEMBERS

- Add free [SIGHT membership](#) to your IEEE membership
- Take part in the free, online courses on the [IEEE Learning Network \(ILN\)](#) that equip participants with a basic understanding of humanitarian technology and sustainable development topics
- Form a [SIGHT Group](#) and establish a team to assess needs in your local community, apply for financial resources, and implement a sustainable technological solution
- Donate to the [IEEE SIGHT Fund of the IEEE Foundation](#); your contribution of any amount helps HAC/SIGHT transform the lives of individuals and communities around the world
- Read and share this report and the other [HAC Quarterly Reports](#)

## OUs

- Identify opportunities for collaboration and joint programs
- Publicize HAC/SIGHT opportunities and events
- Sponsor or Present at the 2022 IEEE HAC Global Summit

Write to us with your ideas at

[hac-office@ieee.org](mailto:hac-office@ieee.org)

# *Thank You*

*2022 HAC Committee members and HAC/SIGHT Staff attend the in-person meeting*
